

Wire Terminal Tensile Tester

1. Using 0-50KG tension sensor.
2. The LCD screen shows the peak value.
3. Quick terminal chuck, cam type wire clamping mechanism.
4. After the test is completed, it will automatically return to zero and return to position automatically.

TECHNICAL SPECIFICATIONS AND PARAMETERS	
Maximum force	≤50KG
Size	L430 * W180 * H210 (mm)
Slot size	max 5mm
Display mode:	touch screen display, touch operation
Voltage	AC220V 50/60HZ
Power	0.1KW
Testing accuracy	± 0.04KG
Displacement display	0.01mm
Division value	2N
Precision	±0.5%
Machine weight:	10kg
