

## Double Twist Laying Machine 800mm

Dive into the next era of LAN cable manufacturing with our cutting-edge Double Twist Laying Machine at TKS Industries. Tailored for excellence, this machine is engineered to intricately lay paired wires with precision, ensuring optimal performance in LAN cables. Experience the future of cable manufacturing technology with our Double Twist Laying Machine, designed to meet the evolving demands of the industry.

TECHNICAL SPECIFICATIONS AND PARAMETERS	
Model No.	TKS-DTL800
Speed	1200 RPM 2400 twist/min
Power	380v - 50hz
Weight	3800 kgs
